

# SAFETY DATA SHEET

This safety data sheet complies with the requirements of:  
OSHA Hazard Communication Standard (29 CFR 1910.1200)

**Product Name:** Idemitsu ATF Type HK4, 12 x 1 Quart Case  
**Product Code:** 30040100-75000C020

**Revision Date:** 13-May-2019  
**Revision Number:** 2

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

### 1.1 Product identifier

**Product Name:** Idemitsu ATF Type HK4, 12 x 1 Quart Case

### Other means of identification

**Product Code:** 30040100-75000C020

### 1.2 Recommended use of the chemical and restrictions on use

**Recommended Use:** Lubricant

### 1.3 Details of the supplier of the safety data sheet

**Manufactured by:** Idemitsu Lubricants America Corporation  
701 Port Rd., Jeffersonville, IN. 47130  
Email: sds@ilacorp.com

**24 Hour Emergency Phone Number:** Within USA and Canada: 1 800-424-9300  
Outside USA and Canada: + 1 703-741-5970  
(collect calls accepted)

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification

This material is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200) and WHMIS 2015.

### 2.2 Label elements

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Hazards not otherwise classified (HNOC)

Not applicable

### 2.3 Other information

Other hazards

Harmful to aquatic life

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substances

Not applicable

### 3.2 Mixture

#### Non-Hazardous Components

Chemical name	CAS No.	Weight-%
Lubricating Base Stocks	Mixture	90-100

## 4. FIRST AID MEASURES

### 4.1 First Aid Measures

<b>General Advice</b>	If symptoms persist, call a physician. Take a copy of the Safety Data Sheet when going for medical treatment.
<b>Eye Contact</b>	Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If eye irritation persists: Get medical advice or attention.
<b>Skin Contact</b>	Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.
<b>Inhalation</b>	Move to fresh air in case of accidental inhalation of vapors. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Call a physician immediately.
<b>Ingestion</b>	Do not induce vomiting without medical advice. If vomiting occurs naturally, have casualty lean forward to reduce the risk of aspiration. If symptoms persist, call a physician.
<b>Protection of First-aiders</b>	Use personal protective equipment. Avoid contact with eyes, skin and clothing.

#### 4.2 Most important symptoms and effects, both acute and delayed

**Symptoms** No Information available.

#### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to Physician** Treat symptomatically.

### 5. FIRE-FIGHTING MEASURES

#### **Flammable Properties**

NFPA: Class IIIB Combustible Liquid

#### 5.1 Suitable Extinguishing Media:

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment

#### **Unsuitable Extinguishing Media:**

Do not use a solid water stream as it may scatter and spread fire.

#### 5.2 Specific Hazards Arising from the Chemical

Keep product and empty container away from heat and sources of ignition.

#### **Hazardous combustion products**

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and / or irritating. Combustion products may include and are not limited to:  
Carbon oxides  
Calcium Oxides (CaOx)  
Nitrogen oxides (NOx)  
Oxides of Phosphorus  
Sulphur oxides

#### 5.3 Protective Equipment and Precautions for Firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

### 6. ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

##### **Personal precautions**

Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Use personal protection recommended in Section 8. Ensure adequate ventilation. Remove all sources of ignition.

#### 6.2. Environmental precautions

##### **Environmental Precautions**

See section 12 for additional ecological information. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not allow into any sewer, on the ground or into any body of water. Do not flush into surface water or sanitary sewer system. Large Spills: Dike far ahead of liquid spill for later recovery and disposal. Prevent entry into waterways, sewers, basements or confined areas.

#### 6.3 Methods and material for containment and cleaning up

##### **Methods for Clean-up**

Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

#### Spill Management

##### **LARGE SPILLS**

Eliminate sources of ignition. Prevent additional discharge of material if possible to do so without hazard. For small spills implement cleanup procedures; for large spills implement

cleanup procedures and, if in public area, keep public away and advise authorities. Also, if this product is subject to CERCLA reporting (see Section 15 Regulatory Information) notify the National Response Center.

#### WATER SPILLS

Prevent liquid entering sewers, watercourses, or low areas. Contain spilled liquid with sand or earth. Recover by pumping or with suitable absorbent. If liquid is too viscous for pumping, scrape up. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

## 7. HANDLING AND STORAGE

### 7.1. Precautions for safe handling

#### Handling

Do not breathe vapors, spray, or mist. Avoid contact with eyes, skin and clothing. Use personal protection recommended in the SDS. Remove and wash contaminated clothing before re-use. Keep away from open flames, hot surfaces and sources of ignition. Should not be released into the environment.

#### Safe Handling Advice

Handle in accordance with good industrial hygiene and safety practices. Take precautionary measures against static discharges.

### 7.2. Conditions for safe storage, including any incompatibilities

#### Storage

Keep in properly labeled containers. Keep container tightly closed in a dry and well-ventilated place.

#### Technical measures/Precautions

Ensure adequate ventilation.

#### Incompatible Materials and/or Coatings

No Information available

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control Parameters

Chemical name	OSHA PEL	ACGIH TLV	ACGIH OEL (STEL)	NIOSH REL TWA	ILA IHG	ILA ROEG	ILA Internal Exposure Limit
Oil mist, mineral	TWA: 5 mg/m <sup>3</sup>	TWA: 5 mg/m <sup>3</sup>		TWA 5 mg/m <sup>3</sup> ST 10 mg/m <sup>3</sup>			

### 8.2 Exposure controls

#### Appropriate engineering controls

Ensure adequate ventilation, especially in confined areas. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

#### Personal Protective Equipment

<b>Eye/face protection</b>	Safety glasses equipped with side shields are recommended as minimum protection in industrial settings.
<b>Skin protection</b>	Choose the appropriate protective clothing and gloves based on the tasks being performed to avoid exposed skin surfaces. <b>Glove Type:</b> Neoprene, Nitriles
<b>Respiratory protection</b>	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
<b>General Hygiene Considerations</b>	When using, do not eat, drink or smoke. Remove and wash contaminated clothing before re-use.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

<b>Appearance</b>	Red
<b>Physical state</b>	Liquid
<b>Odor</b>	Slight
<b>Odor Threshold</b>	No Information available
<b>pH</b>	Not applicable
<b>Melting point / melting range</b>	Not applicable
<b>Boiling point / boiling range</b>	No Information available
<b>Flash Point</b>	203 °C / 397 °F Cleveland Open Cup
<b>Evaporation Rate</b>	No Information available
<b>Flammability Limit in Air</b>	No Information available
<b>Explosion Limits</b>	No Information available
<b>Vapor Pressure</b>	No Information available
<b>Vapor Density</b>	No Information available
<b>Density</b>	0.8452 g/cm <sup>3</sup> @ 15°C
<b>Solubility(ies)</b>	No Information available
<b>Partition coefficient</b>	No Information available
<b>Autoignition Temperature</b>	No Information available
<b>Decomposing Temperature</b>	No Information available
<b>Kinematic viscosity</b>	@ 40C = 25.47 cSt; @ 100C = 5.40 cSt

### Other Information

No additional information available

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

<b>Reactivity</b>	The product is chemically stable.
-------------------	-----------------------------------

### 10.2 Chemical stability

<b>Chemical Stability</b>	Stable under normal conditions.
---------------------------	---------------------------------

### 10.3 Possibility of Hazardous Reactions

<b>Possibility of Hazardous Reactions</b>	None under normal processing.
---	-------------------------------

<b>Hazardous Polymerization</b>	Hazardous polymerization does not occur.
---------------------------------	--

### 10.4 Conditions to avoid

---

Conditions to Avoid	Heat, flames and sparks.
---------------------	--------------------------

10.5 Incompatible materials

Incompatible Materials	Strong oxidizing and reducing agents
------------------------	--------------------------------------

10.6 Hazardous Decomposition Products

Hazardous decomposition products	Thermal decomposition can lead to release of irritating gases and vapors.
----------------------------------	---

**11. TOXICOLOGICAL INFORMATION**

11.1 Information on likely routes of exposure

Inhalation	May cause irritation of respiratory tract.
Eye contact	May cause slight irritation.
Skin Contact	May cause skin irritation and/or dermatitis.
Ingestion	May be harmful if swallowed.

11.2 Information on toxicological effects

Symptoms	No Information available
----------	--------------------------

11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Not classified.
Serious eye damage/eye irritation	Not classified.
Sensitization	Not classified.
Mutagenic effects	Not classified.
Reproductive Toxicity	Not classified
STOT - single exposure	Not classified.
STOT - repeated exposure	Not classified
Aspiration hazard	Not classified.

11.4 Carcinogenicity

Carcinogenicity:	No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP, IARC, OSHA or ACGIH.
------------------	--

Legend:	<i>NTP (National Toxicology Program), IARC (International Agency for Research on Cancer), OSHA (Occupational Safety and Health Administration of the US Department of Labor), ACGIH (American Conference of Governmental Industrial Hygienists)</i>
---------	---

11.5 Acute Toxicity

The following values are calculated based on chapter 3.1 of the GHS document .

Product Information (Estimated):

ATEmix (oral)	> 5,000 mg/kg
ATEmix (dermal)	> 5,000 mg/kg
ATEmix (inhalation-dust/mist)	> 5 mg/l

## 12. ECOLOGICAL INFORMATION

### 12.1 Ecotoxicity

#### Ecotoxicity effects

Harmful to aquatic life. Plants and animals may experience harmful or fatal effects when coated with petroleum products. Petroleum-based (mineral) lubricating oils normally will float on water. In stagnant or slow-flowing waterways, an oil layer can cover a large surface area. As a result, this oil layer might limit or eliminate natural atmospheric oxygen transport into the water. With time, if not removed, oxygen depletion in the waterway may be sufficient to cause a fish kill or create an anaerobic environment.

#### Unknown aquatic toxicity

3.96 % of the mixture consists of component(s) of unknown hazards to the aquatic environment

### 12.2 Persistence and degradability

No Information available.

### 12.3 Bioaccumulation/Accumulation

No Information available.

### 12.4 Mobility in Environmental Media

No Information available.

### 12.5 Other adverse effects:

No Information available.

### PBT and vPvB assessment

No Information available

## 13. DISPOSAL CONSIDERATIONS

Hazard characteristic and regulatory waste stream classification can change with product use. Accordingly, it is the responsibility of the user to determine the proper storage, transportation, treatment and/or disposal methodologies for spent materials and residues at the time of disposition.

#### Waste Disposal Method

This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

#### Contaminated packaging

Dispose of in accordance with local regulations. Empty containers should be taken for local recycling, recovery or waste disposal.

## 14. TRANSPORT INFORMATION

<u>DOT</u>	Not regulated
<u>DOT - Bulk</u>	Not regulated
<u>IATA</u>	Not regulated
<u>IMDG</u>	Not regulated

## 15. REGULATORY INFORMATION

### International Inventories

<b>TSCA</b>	All ingredients are on the inventory or exempt from listing		
<b>DSL</b>	All ingredients are on the inventory or exempt from listing		
<b>NDSL</b>	There are ingredients listed on the NDSL Inventory List

<b>REACH</b>	All ingredients are on the inventory or exempt from listing		

### USA

#### Federal Regulations

#### SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

#### SARA 311/312 Hazardous Categorization

<b>Acute health hazard</b>	No
<b>Chronic Health Hazard</b>	No
<b>Fire hazard</b>	No
<b>Sudden Release of Pressure Hazard</b>	No
<b>Reactive Hazard</b>	No

#### CERCLA/SARA 302 & 304

Section 302 & 304 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 355.

Chemical name	CAS No.	Weight-%	RQ	TPQ
Sulfur dioxide	7446-09-5	<0.01		500 lb TPQ
