

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

### **SECTION 1: Identification**

#### 1.1 Product identifier

Trade name Nu Finish - Scratch Doctor 9-16-19

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses General use

## 1.3 Details of the supplier of the safety data sheet

Energizer Manufacturing, Inc. 25225 Detroit Rd. Westlake OH 44145 United States

Telephone: 800-383-7323; 314-985-2000 (USA / CANADA)

Website: http://data.energizer.com

Energizer Trading Ltd.

Sword House, Totteridge Road, High Wycombe, HP13 6DG, UK

Telephone: +44(0)8000353376

e-mail: ConsumerServiceEU@energizer.com

#### 1.4 Emergency telephone number

Emergency information service 1-314-985-1511 Int'l: 1-800-526-4727

This number is only available during the following

office hours: Mon-Fri 09:00 AM - 05:00 PM

## **SECTION 2: Hazard(s) identification**

#### 2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

| Section | Hazard class                                       | Category | Hazard class and category | Hazard state-<br>ment |
|---------|--|----------|---------------------------|-----------------------|
| A.4S    | skin sensitization                                 | 1        | Skin Sens. 1              | H317                  |
| A.9     | specific target organ toxicity - repeated exposure | 2        | STOT RE 2                 | H373                  |
| A.10    | aspiration hazard                                  | 1        | Asp. Tox. 1               | H304                  |
| B.6     | flammable liquid                                   | 4        | Flam. Liq. 4              | H227                  |

For full text of abbreviations: see SECTION 16.

The most important adverse physicochemical, human health and environmental effects

Delayed or immediate effects can be expected after short or long-term exposure. The product is combustible and can be ignited by potential ignition sources.

United States: en Page: 1 / 21

acc. to 29 CFR 1910.1200 App D

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21

Replaces version of: 2020-06-09 (GHS 8)

#### 2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

- Signal word danger

- Pictograms

GHS07, GHS08

#### - Hazard statements

H227 Combustible liquid.

H304 May be fatal if swallowed and enters airways.

H317 May cause an allergic skin reaction.

H373 May cause damage to organs (nervous system) through prolonged or repeated exposure.

### - Precautionary statements

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children. P103 Read label before use.

P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

P260 Do not breathe dust/fume/gas/mist/vapors/spray.

P272 Contaminated work clothing must not be allowed out of the workplace.

P280 Wear protective gloves/eye protection/face protection.
P301+P310 If swallowed: Immediately call a poison center/doctor.

P302+P352 If on skin: Wash with plenty of water.

P314 Get medical advice/attention if you feel unwell.

P321 Specific treatment (see on this label).

P331 Do NOT induce vomiting.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P363 Wash contaminated clothing before reuse.

P370+P378 In case of fire: Use sand, carbon dioxide or powder extinguisher to extinguish.

P403+P235 Store in a well-ventilated place. Keep cool.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local/regional/national/international regula-

tions.

## 2.2.1.7 - Hazardous ingredients for labelling

Distillates (petroleum), hydrotreated light, 1,2-Benzisothiazolin-3-one

#### 2.3 Other hazards

This material is combustible, but will not ignite readily. Special danger of slipping by leaking/spilling product.

#### Hazards not otherwise classified

May be harmful if inhaled (GHS category 5: acutely toxic - inhalation).

Harmful to aquatic life with long lasting effects (GHS category 3: aquatic toxicity - acute and/or chronic).

#### Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

United States: en Page: 2 / 21

acc. to 29 CFR 1910.1200 App D

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

### **SECTION 3: Composition/information on ingredients**

#### 3.1 Substances

Not relevant (mixture)

#### 3.2 Mixtures

Description of the mixture

| Name of substance                                 | Identifier           | Wt%       | Classification acc. to GHS   | Pictograms |
|---|----------------------|-----------|--|------------|
| Distillates (petroleum), hy-<br>drotreated light  | CAS No<br>64742-47-8 | 10 - < 25 | Acute Tox. 3 / H331<br>STOT SE 3 / H336<br>STOT RE 2 / H373<br>Asp. Tox. 1 / H304<br>Flam. Liq. 3 / H226 |            |
| Kaolin, calcined                                  | CAS No<br>92704-41-1 | 5 – < 10  | Acute Tox. 4 / H332  | <u>(1)</u> |
| Aluminium hydroxide                               | CAS No<br>21645-51-2 | 1-<5      | Acute Tox. 4 / H332  | <u>(1)</u> |

For full text of abbreviations: see SECTION 16.

## **SECTION 4: First-aid measures**

### 4.1 Description of first- aid measures

#### General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

#### Following inhalation

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air.

#### Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

United States: en Page: 3 / 21

acc. to 29 CFR 1910.1200 App D

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

#### Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

## 4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date.

## 4.3 Indication of any immediate medical attention and special treatment needed

none

## **SECTION 5: Fire-fighting measures**

## 5.1 Extinguishing media

Suitable extinguishing media

Water spray, BC-powder, Carbon dioxide (CO2)

Unsuitable extinguishing media

Water jet

## 5.2 Special hazards arising from the substance or mixture

In case of insufficient ventilation and/or in use, may form flammable/explosive vapor-air mixture. Solvent vapors are heavier than air and may spread along floors. Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures.

Hazardous combustion products

Nitrogen oxides (NOx), Carbon monoxide (CO), Carbon dioxide (CO2)

#### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remove persons to safety.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

### 6.2 Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.

#### 6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill

Covering of drains

United States: en Page: 4 / 21

acc. to 29 CFR 1910.1200 App D

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

#### Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

### Appropriate containment techniques

Use of adsorbent materials.

#### Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

#### 6.4 Reference to other sections

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

## **SECTION 7: Handling and storage**

## 7.1 Precautions for safe handling

#### Recommendations

- Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Avoidance of ignition sources. Keep away from sources of ignition - No smoking. Take precautionary measures against static discharge. Use only in well-ventilated areas. Due to danger of explosion, prevent leakage of vapours into cellars, flues and ditches. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/equipment. Use only non-sparking tools.

- Specific notes/details

Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures. Vapors are heavier than air, spread along floors and form explosive mixtures with air. Vapors may form explosive mixtures with air.

#### Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

## 7.2 Conditions for safe storage, including any incompatibilities

#### Managing of associated risks

- Explosive atmospheres

Keep container tightly closed and in a well-ventilated place. Use local and general ventilation. Keep cool. Protect from sunlight.

- Flammability hazards

Keep away from sources of ignition - No smoking. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take precautionary measures against static discharge. Protect from sunlight.

#### Control of the effects

#### Protect against external exposure, such as

Frost

United States: en Page: 5 / 21

acc. to 29 CFR 1910.1200 App D

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

- Ventilation requirements

Use local and general ventilation. Ground/bond container and receiving equipment.

### 7.3 Specific end use(s)

See section 16 for a general overview.

## **SECTION 8: Exposure controls/personal protection**

## 8.1 Control parameters

Occupational exposure limit values (Workplace Exposure Limits)

| Coun<br>try | Name of agent                       | CAS No         | Iden-<br>tifier | TWA<br>[ppm] | TWA<br>[mg/<br>m³] | STEL<br>[ppm] | STEL<br>[mg/<br>m³] | Ceil-<br>ing-C<br>[ppm] | Ceil-<br>ing-C<br>[mg/<br>m³] | Nota<br>tion | Sourc<br>e          |
|-------------|-------------------------------------|----------------|-----------------|--------------|--------------------|---------------|---------------------|-------------------------|-------------------------------|--------------|---------------------|
| US          | aluminium, insol-<br>uble compounds | 21645-<br>51-2 | TLV®            |              | 1                  |               |                     |                         |                               | r            | AC-<br>GIH®<br>2019 |

Notation

Ceiling-C ceiling value is a limit value above which exposure should not occur

respirable fraction

STEL short-term exposure limit: a limit value above which exposure should not occur and which is related to a 15-minute period

(unless otherwise specified)

TWA time-weighted average (long-term exposure limit): measured or calculated in relation to a reference period of 8 hours time-

weighted average (unless otherwise specified

#### 8.2 Exposure controls

Appropriate engineering controls

General ventilation.

Individual protection measures (personal protective equipment)

#### Eye/face protection

Wear eye/face protection.

## Skin protection

#### - Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

#### - Other protection measures

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

#### Respiratory protection

In case of inadequate ventilation wear respiratory protection.

### Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

### **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

## **Appearance**

| Physical state | liquid (gel)   |
|----------------|----------------|
| Color          | various        |
| Odor           | characteristic |

## **SECTION 10: Stability and reactivity**

### 10.1 Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials". The mixture contains reactive substance(s). Risk of ignition.

If heated:

Risk of ignition

#### 10.2 Chemical stability

See below "Conditions to avoid".

### 10.3 Possibility of hazardous reactions

No known hazardous reactions.

#### 10.4 Conditions to avoid

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Hints to prevent fire or explosion

Use explosion-proof electrical/ventilating/lighting/equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

#### 10.5 Incompatible materials

Oxidizers

### 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

## **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

## Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

Acute toxicity

Shall not be classified as acutely toxic.

GHS of the United Nations, annex 4: May be harmful if inhaled.

United States: en Page: 10 / 21

acc. to 29 CFR 1910.1200 App D

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

Acute toxicity estimate (ATE) of components of the mixture

| Name of substance                           | CAS No     | Exposure route        | ATE                                   |
|---|------------|-----------------------|---------------------------------------|
| Distillates (petroleum), hydrotreated light | 64742-47-8 | inhalation: vapor     | 5.28 <sup>mg</sup> / <sub>l</sub> /4h |
| Kaolin, calcined                            | 92704-41-1 | inhalation: dust/mist | 2.07 <sup>mg</sup> / <sub>l</sub> /4h |
| Aluminium hydroxide                         | 21645-51-2 | inhalation: vapor     | 11 <sup>mg</sup> / <sub>l</sub> /4h   |
| Aluminium hydroxide                         | 21645-51-2 | inhalation: dust/mist | 3.8 <sup>mg</sup> / <sub>l</sub> /4h  |
| 1,2-Benzisothiazolin-3-one                  | 2634-33-5  | oral                  | 670 <sup>mg</sup> / <sub>kg</sub>     |

#### Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

#### Serious eye damage/eye irritation

Shall not be classified as seriously damaging to the eye or eye irritant.

### Respiratory or skin sensitization

May cause an allergic skin reaction.

### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

#### Carcinogenicity

Shall not be classified as carcinogenic.

#### Reproductive toxicity

Shall not be classified as a reproductive toxicant.

### Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

### Specific target organ toxicity - repeated exposure

May cause damage to organs (nervous system) through prolonged or repeated exposure.

| Hazard category | Target organ   | Exposure route |
|-----------------|----------------|----------------|
| 2               | nervous system | if exposed     |

## Aspiration hazard

May be fatal if swallowed and enters airways.

United States: en Page: 11 / 21

acc. to 29 CFR 1910.1200 App D

### 12.2 Persistence and degradability

Data are not available.

### 12.3 Bioaccumulative potential

Data are not available.

#### 12.4 Mobility in soil

Data are not available.

#### 12.5 Results of PBT and vPvB assessment

Data are not available.

#### 12.6 Other adverse effects

Endocrine disrupting potential

None of the ingredients are listed.

### **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Waste treatment-relevant information

Solvent reclamation/regeneration.

Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data sheets.

Waste treatment of containers/packages

Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

#### **Remarks**

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

#### **NFPA® 704**

National Fire Protection Association: Standard System for the Identification of the Hazards of Materials for Emergency Response (United States).

| Category       | Degree of<br>hazard | Description   |
|----------------|---------------------|---|
| Flammability   | 2                   | material that must be moderately heated or exposed to relatively high ambient tem-<br>peratures before ignition can occur |
| Health         | 2                   | material that, under emergency conditions, can cause temporary incapacitation or residual injury                          |
| Instability    | 0                   | material that is normally stable, even under fire conditions  |
| Special hazard |                     |   |

### **National inventories**

| Country | Inventory  | Status                         |
|---------|------------|--------------------------------|
| AU      | AICS       | not all ingredients are listed |
| CA      | DSL        | all ingredients are listed     |
| CN      | IECSC      | all ingredients are listed     |
| EU      | ECSI       | not all ingredients are listed |
| EU      | REACH Reg. | not all ingredients are listed |
| JP      | CSCL-ENCS  | not all ingredients are listed |
| JP      | ISHA-ENCS  | not all ingredients are listed |
| KR      | KECI       | all ingredients are listed     |
| MX      | INSQ       | not all ingredients are listed |
| NZ      | NZIoC      | all ingredients are listed     |
| PH      | PICCS      | all ingredients are listed     |
| TR      | CICR       | not all ingredients are listed |
| TW      | TCSI       | all ingredients are listed     |
| US      | TSCA       | all ingredients are listed     |

| vPvB           | Very Persistent and very Bioaccumulative  |

## Key literature references and sources for data

OSHA Hazard Communication Standard (HCS), 29 CFR 1910.1200.

Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG). Dangerous Goods Regulations (DGR) for the air transport (IATA).

### **Classification procedure**

Physical and chemical properties: The classification is based on tested mixture. Health hazards, Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

United States: en Page: 20 / 21

## Nu Finish - Scratch Doctor 9-16-19

Version number: GHS 9.0 Revision: 2020-10-21 Replaces version of: 2020-06-09 (GHS 8)

## List of relevant phrases (code and full text as stated in chapter 2 and 3)

| Code | Text  |
|------|---|
| H226 | Flammable liquid and vapor.   |
| H227 | Combustible liquid.   |
| H302 | Harmful if swallowed.   |
| H304 | May be fatal if swallowed and enters airways.                                       |
| H315 | Causes skin irritation.   |
| H317 | May cause an allergic skin reaction.  |
| H318 | Causes serious eye damage.  |
| H331 | Toxic if inhaled.   |
| H332 | Harmful if inhaled.   |
| H336 | May cause drowsiness or dizziness.  |
| H373 | May cause damage to organs (nervous system) through prolonged or repeated exposure. |
